TITLE	Data and Characteristics of the Illinois Public Community College System.
INSTITUTION	Illinois Community Coll. Board, Springfield.
PUB DATE	May 97
NOTE	169p.; For the 1996 report, see ED 397 925. Some tables contain small type which may not reproduce well.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC07 Plus Postage.
DESCRIPTORS	Administrators; *College Faculty; College Programs; Community Colleges; Construction Programs; Educational Facilities; Educational Finance; Enrollment; Financial Support; Full Time Equivalency; *Institutional Characteristics; *Public Colleges; School Personnel; State Surveys; *Student Characteristics; Tables (Data); *Two Year College Students; Two Year Colleges
IDENTIFIERS	*Illinois Community College System

ABSTRACT

Data on the Illinois public community colleges for FY 1996 and Fall 1996 are presented in this report on the system's students, faculty, staff, instructional programs, operating finances, and capital construction. Following a brief introduction providing a profile of the colleges and a map of the college districts, section I presents tables showing student characteristics, including headcount data for fall 1996 by sex and full-/part-time status, instructional program area, age, ethnic origin, academic classification, type of residency, and enrollment status. This section also offers information on proportions of district populations served, community education enrollments, and headcount and full-time equivalent data for fall 1986 through fall 1996. Section II contains data on faculty and staff, including information on the sex and full-/part-time status of instructional faculty, administrative staff, non-teaching professional staff, and classified staff for fall 1996. Average base salaries for FY 1997 and average class type and size are also detailed. Section III presents program enrollment and completion data for 1996, including unduplicated headcount enrollments by sex, program classification, academic program, age, ethnic origin, highest previous degree, degrees awarded, adult certificates awarded, and annual duplicated completers by program by college. Section IV contains financial data on apportionments, grants to colleges, instructional unit costs, tax levies, operating revenues and expenditures, and energy usage and costs. Finally, section V provides data on facilities and college instruction. (HAA)

INTRODUCTION

This is the sixteenth publication of a comprehensive data book by the Illinois Community College Board (ICCB). This document contains data and characteristics of the Illinois public community college system and is designed to serve as a basic reference. No analysis of the data is intended in this document. The data are obtained from various surveys and studies conducted by ICCB staff and from the colleges' annual MIS submissions.

This year the major data tables from the data book will again be available to colleges in computer-readable form using Quattro Pro (Windows) spreadsheet format. To receive the data book in computer-readable form: (1) send a blank, formatted 3 1/2 inch disk that can be read by an IBM compatible microcomputer; (2) specify whether the disk is high density or regular density; (3) enclose a self-addressed envelope with return postage; and (4) forward your request to the Production Controller, Information Technology Department, Illinois Community College Board, 509 South Sixth Street, Suite 400, Springfield, Illinois 62701-1874.

This document contains annual data for fiscal year 1996 and fall term data for 1996 (fiscal year 1997). Enrollment data and faculty and staff data are collected during the fall term each year; thus, these data are fall term 1996 (fiscal year 1997). Budgeted operating finance and facilities data are for fiscal year 1997. Audited financial data, unit cost data, annual enrollments, and graduate data are for fiscal year 1996.

This publication provides information about (1) students, (2) faculty and staff, (3) annual enrollment and completion, (4) operating finance, and (5) capital construction. Each of these areas constitutes a section of this document. Several tables summarize data from more detailed reports that have been published separately. The objective of this document is to provide useful summaries of data for community college districts in one reference document. If you have requests for other data or suggestions for additions or deletions, please contact the ICCB office.

Special acknowledgment is extended to the personnel of the colleges for their cooperation in completing surveys and providing the ICCB with computer-readable data on a timely basis.

Table 1 on the next page is a summary profile of selected statistics for the 40 Illinois public community college districts. The map on page x shows the geographic location of each college district.

Section I

FALL STUDENT CHARACTERISTICS

This section includes data on headcount and full-time equivalent (FTE) student enrollments in Illinois public community colleges.

The public community colleges of Illinois enroll approximately 70 percent of all students enrolled in public colleges and universities in the state of Illinois. The diverse population of the communities that the colleges serve is reflected in the student characteristics shown in this section.

The tables show student enrollments based on opening counts (10th-day enrollments) for the fall term. Opening enrollment counts are a snapshot count at the end of the regular registration for the fall term and do not include many students who enroll for courses which start later in a term - particularly in adult education.

Table I-1 lists the fall 1996 student headcount enrollment by sex and type of attendance. Fifty-eight percent of the 340,151 students enrolled in Illinois public community colleges were women. Part-time students accounted for approximately 69 percent of the enrollments.

Table I-2 itemizes the fall 1996 student headcount enrollment by instructional program area. As depicted in Figure 1, 42.4 percent of the students were enrolled in baccalaureate/transfer programs, 36.5 percent in occupational and vocational skills programs, 2.8 percent in general studies programs, 4.5 percent in general associate programs, and 13.8 percent in adult basic education/adult secondary education/English as a Second Language programs.

The data in Table I-3 show fall 1996 headcount enrollment by age categories and provide the median age of students for each public community college. The median age for fall 1996 students was 25.59 years. This is down .24 years from the fall 1995 median age of 25.83. The fall 1996 mean age was 29.87 years.

Tables I-4 through I-7 summarize fall 1996 student headcount enrollment by ethnic origin, academic classification, type of residency, and enrollment status. Table I-5 shows that approximately 21 percent of fall 1996 students were classified as sophomores. Fifty-two percent of the fall 1996 enrollments were classified as freshmen.

Table I-8 lists by headcount and FTE the proportions of district populations served by Illinois public community colleges in instructional credit curricula. Table I-9 summarizes fall 1996 headcount enrollment by instructional program area and student level.

Table I-10 details the trends in community college headcount enrollments from fall 1987 through fall 1996. Table I-11 lists the trends of FTE enrollments for the same ten-year period.

*Effective in fiscal year 1992, Black Hawk College was restructured as a single college district with two campuses.
**Includes enrollments from Heartland Community College.
***Formerly State Community College

NOTE: Fall 1989 increases at Illinois Eastern are attributable in part to a change in the start-up date of the coal mining technology program at Wabash Valley.

SOURCE OF DATA: Fall Enrollment (E1 Records) - reflects enrollment as of the fall term census date (end of registration). Will not reflect enrollments in courses that have a starting date later than the census date - particularly those in adult education.

*Effective in fiscal year 1992, Black Hawk College was restructured as a single college district with two campuses.
**Includes enrollments from Heartland Community College.
***Formerly State Community College

NOTE: Fall 1989 increases at Illinois Eastern are attributable in part to a change in the start-up date of the coal mining technology program at Wabash Valley.

SOURCE OF DATA: Fall Enrollment (E1 Records) - reflects enrollment as of the fall term census date (end of registration). Will not reflect enrollments in courses that have a starting date later than the census date - particularly those in adult education.

Section II

FACULTY AND STAFF DATA

The tables in this section present data regarding faculty and staff employed by the public community colleges of Illinois. The salary and staff data were collected in fall 1996 and reflect averages for fiscal year 1997. Employee groups exclude those persons who are employed predominantly to provide services at a correctional facility.

Descriptions of the employee groups used in this section are provided below. These categories correspond with *Fiscal Management Manual* salaries expenditures codes.

- Faculty are individuals who spend more than one-half of their workload in the activity of teaching and providing instruction to students.
- Administrative Staff are line officers of the college who manage, conduct, and administer programs, staff, and operations of the board of trustees.
- Classified Staff include clerical and custodial/maintenance staff. Clerical personnel engage in the process of keeping records and processing information upon the request and direction of college professional staff. Custodial/maintenance staff engage in housekeeping and the maintenance or repair of college facilities and equipment.
- Other (nonteaching) Professional Staff include professional/technical, academic support, and supervisory staff. Professional/technical staff have specialized skills but do not directly support the process of teaching. Academic support staff exercise professional judgement and discretion and directly support the teaching and learning process. Supervisory staff have the duty, responsibility, or authority to recommend the employment, transfer, suspension, dismissal, promotion, assignment, reward, or discipline of other staff individuals both full- and part-time.

Figure 2 shows the headcount distribution of community college employees statewide by employee group: faculty (51.07 percent), other nonteaching professionals (9.88 percent), classified (34.69 percent), and administrators (4.37 percent).

Table II-1 lists the number of instructional teaching faculty by sex and employment status employed during fall 1996. Of the 16,369 teaching faculty employed in fall 1996, 4,454 were full-time faculty.

Table II-2 shows the total number of administrative staff by sex and employment status.

Table II-3 lists the number of full-time and part-time nonteaching professional staff by sex and employment status employed in each community college. Table II-4 provides the same information for classified or civil service type staff.

The average contractual base salaries paid to full-time teaching faculty, full-time administrative staff, and full-time nonteaching professionals are shown in Table II-5.

Table II-6 identifies the average class size for on-campus lecture/discussion classes and laboratory classes. Table II-7 shows a percent distribution of on-campus classes by size for each community college.

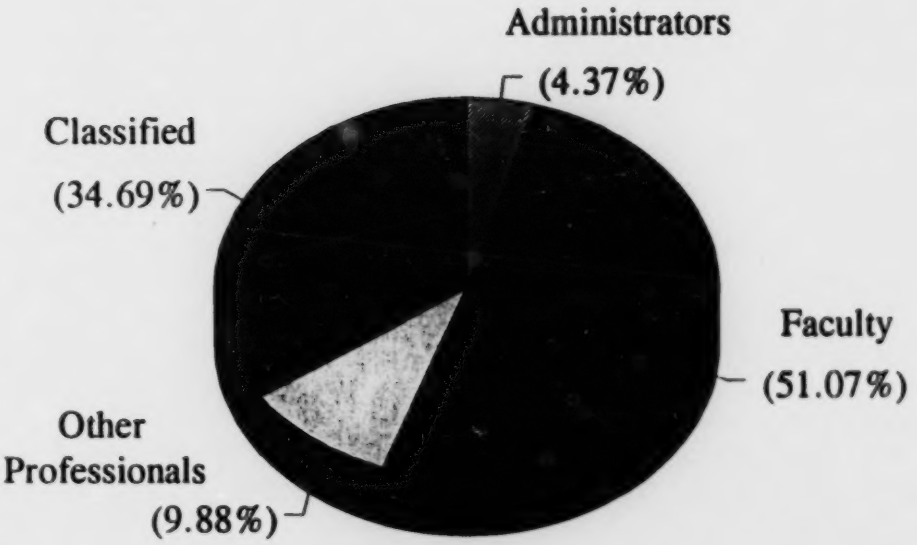

Figure 2. Fall 1996 State Headcount Distribution of Employees by Employee Group

Section III

ANNUAL ENROLLMENT AND COMPLETION DATA

Section III includes data on annual enrollment and completions in fiscal year 1996 among Illinois public community colleges.

Table III-1 shows the annual unduplicated headcount enrollment by sex in Illinois public community colleges for fiscal year 1996.

Table III-2 shows the annual unduplicated headcount enrollment by program classification in Illinois public community colleges for fiscal year 1996.

Table III-3 contains more detailed data on fiscal year 1996 annual unduplicated enrollment through the use of the national program classification structure/classification of instructional program (PCS/CIP) coding system.

Table III-4 shows the fiscal year 1996 annual unduplicated enrollment by age category.

Table III-5 summarizes the fiscal year 1996 annual unduplicated enrollment by ethnic origin.

Table III-6 summarizes the highest degree previously earned for fiscal year 1996 Illinois public community college students.

Figure 3 shows the fiscal year 1996 annual duplicated completers in the following categories; transfer degrees (35.59 percent), occupational certificates (29.08 percent), occupational degrees (27.30 percent), and general associate degrees (2.28 percent). Adult basic, adult secondary, and English as a Second Language certificates, as well as vocational skills certificates and general studies certificates comprise the "other" category (5.74 percent).

Table III-7 lists the number of associate degrees awarded in transfer and general studies curricula and the number of general studies certificates awarded by each community college in fiscal year 1996.

Table III-8 shows the number of associate degrees and certificates awarded in occupational curricula and the number of vocational skills certificates awarded by each community college in fiscal year 1996.

Table III-9 contains the number of adult basic and adult secondary education certificates awarded in fiscal year 1996.

Table III-10 contains more detailed data on fiscal year 1996 annual completers through the use of the national program classification structure/classification of instructional program (PCS/CIP) coding system.

Section IV

FINANCIAL DATA

Presented in this section are financial data on audited revenues and expenditures, chargeback computations, local tax rates, tuition and fees, and state aid grants.

Tables IV-1 through IV-3 give historical data for annual enrollments, ICCB grants to colleges, and net instructional unit costs.

Table IV-4 shows the fiscal year 1996 reimbursable credit hours for funded instructional categories and the total reimbursable credit hours for each community college district. Reimbursable credit hours are those hours which qualify for state funding.

Tables IV-5 and IV-6 list the state grants received by each community college district during fiscal year 1996 and fiscal year 1997 for each category of grants.

Table IV-7 shows the per capita costs per credit hour, the chargeback rate, and tuition and fee rates for each community college district. Colleges are limited by law to a tuition rate that does not exceed one-third of their per capita costs.

Table IV-8 lists the total 1995 operating tax extensions and the corporate personal property replacement tax paid to each community college district in 1996.

Table IV-9 itemizes each college's 1995 tax levy rates for the Education Fund; Operations and Maintenance Fund; Bond and Interest Fund; Liability, Protection, and Settlement Fund; Audit Fund; and Other Funds.

Table IV-10 details the fiscal year 1996 net instructional unit cost for funded instructional categories for each community college district.

Tables IV-11 through IV-13 show operating revenues by source and operating expenditures by object and function for the Education and Operation and Maintenance Funds as reported in the districts' fiscal year 1996 external audits.

Tables IV-14 through IV-15 present total current funds revenues by source of funds and expenditures by function for each public community college district as reported in the districts' fiscal year 1996 external audit.

Table IV-16 provides data on energy costs for each college for fiscal year 1996.

Section V

FACILITIES DATA

This section on facilities presents two types of data; the first part gives data on physical facilities available on community college campuses and the second briefly describes how the facilities were financed.

Table V-1 summarizes the total acreage on each college campus by nine categories of land use.

Table V-2 summarizes the total net assignable square feet (NASF) and gross square feet (GSF) available on each community college campus as of fall 1996.

Table V-3 lists the square footage of all on-campus facilities under construction or approved for construction as of fall 1996.

Table V-4 presents the total NASF by room use classification. Tables V-5 through V-7 show the NASF by function of space on each campus for completed facilities. The NASF is shown for state-funded facilities, locally funded facilities, and temporary facilities.

Table V-8 shows the NASF by function of space in state-funded facilities under construction. Table V-9 shows this breakdown for locally funded permanent facilities approved or under construction.

Table V-10 presents a computed figure for space (room use category) per student (10th day on-campus FTE).

Table V-11 shows the amount of space per college justified for state-supported construction based on the enrollment criteria utilized by both the IBHE and the ICCB. The calculation is based on full-time equivalent students (FTE). The formula used is explained in ICCB Rule 1501.603c4C.

Table V-12 depicts the number of protection, health, and safety projects approved and the budgeted amounts for these projects.

Table V-13 lists the project and funding for all capital projects completed since January 1990.

Tables V-14 through V-17 list projects currently under construction or approved as of May 1997. Table V-14 includes regular capital projects; Table V-15 identifies projects funded with protection, health, and safety monies; and Tables V-16 and V-17 show capital renewal grants for fiscal years 1994 and 1995, respectively.

NASF = Net Assignable Square Feet
GSF = Gross Square Feet
*Building efficiency equals net assignable square feet divided by gross square feet.
